## EDUCATION

Bachelor of Computer Applications (7.28CGPA)

Kuvempu Universtiry

(2021 - 2024)

2nd PUC In Science (65.8 %)

Govt PU College, Thirthahalli (KSEAB)
(2019 - 2021)

Class 10th (75.90%)

Govt High School, Sonale (KSEEB)
(2016 - 2019)

SKILLS

- Python, C#, C, PHP,
- Responsive Design
- HTML5 , CSS3, Java Script
- MySQL
- Git and GitHub
- Debugging and Agile Development
- REST APIs
- Critical Thinking
- Communication Skills

LANGUAGE

- Kannada
- English
- Hindi

CAREER OBJECTIVE

To secure a career oriented position in a challenging environment, that provides opportunities for growth and advancement, where I can utilize my skills, knowledge and experience to towards becoming a valuable contributor to the company

EXPERIENCE

Junior Software Developer

Small Startup   Jan 2025 – May 2025

- Contributed to the development of ERP software using the C# .NET MVC Framework.
- Built and consumed RESTful APIs to enable seamless data exchange between frontend and backend.
- Handled database design and migrations to ensure efficient data storage and retrieval.

PROJECTS

Online Ticket Booking System

Developed a web-based ticket booking system that allows users to search, select, and book tickets for movies, events, or travel in real time.
- Implemented user authentication and registration functionality
- Designed interactive UI for searching and selecting seats
- Integrated booking confirmation with real-time seat availability
- Built admin panel to manage events, user data, and bookings
- Used MySQL for backend data storage and PHP for server-side logic
- Focused on responsive design and user experience across devices

Image Steganography System

Built a Python-based steganography tool to securely hide and retrieve text data within digital images using image processing techniques.
- Utilized OpenCV for reading and writing images, and NumPy for pixel-level manipulation
- Implemented Least Significant Bit (LSB) technique to embed secret messages into image pixels
- Developed encoding and decoding algorithms to ensure data accuracy and image integrity
- Focused on clean UI (CLI or GUI, if used), error handling, and input validation
- Designed for secure communication and data confidentiality applications

Area Of Interest

- Full-Stack Web Development
- Problem Solving & Debugging
- Learning New Web Technologies & Frameworks
